

Summer 2014

Fifty Years Later: From a War on Poverty to a War on the Poor

August 15-17, 2014

Message from the Chair

Dear Division Members,

It seems incredible, but the annual meeting is now merely weeks away. We have nine outstanding sessions on the schedule, beginning on Friday morning (August 15). And, of course, we'll have our incomparable reception on Saturday evening. Read on for more details and for other relevant Division news.

See you in San Francisco!

Ellen

Drinking and Drugs Reception on August 16

Our annual joint reception with the Alcohol, Drugs and Tobacco section of ASA will happen on Saturday, August 16, at 6:30 p.m. It will take place at the Institute for Scientific Analysis, which is located at 390 4th Street, on the second floor. Drinks and light food will be available.

Division Business Meeting

Please plan to attend our business meeting on Friday, August 15, from 4:30 to 6:10 in the Club Room. This will be a great opportunity to congratulate and welcome our **incoming Chair, Alice Cepeda**. We also need to establish committees and to develop next year's sessions, and if you would like to suggest other agenda items, please let me know. Also, if you have ideas for **2015 sessions**, feel free to send them to me via email before the meeting. We can have up to three independent sessions and up to seven co-sponsored sessions. Next year's theme has not yet been determined, but if we have ideas, I can reach out to other division chairs to explore their interest and report back to you at the business meeting. I've learned that starting the process in advance can make it easier to secure the sponsored sessions we really want.

[How Neuroscience Reinforces Racist Drug Policy](#)

Brain scans do not speak for themselves. The seemingly objective science of neuroimaging can be used to justify a moral argument for or against legal marijuana—to show it as a legitimate medicine, or as a danger to your health.
