SSSP Global Division Newsletter

Summer 2006

FROM THE GLOBAL DIVISION CHAIR

The 2006 Annual Meeting Program for Montreal has really shaped up and the Global Section was quite impressed by the wide scope of interests that responded to our call for participation. On behalf of the SSSP Global Division Executive Committee, I would like to thank everyone for this year's paper and presentation proposals. As can be seen below, the Global Section sponsored various paper sessions, co-sponsored others, and has organized two special sessions that will be convened in the form of symposia on August 13th, the "fourth" day of the SSSP conference. We would certainly like to invite all SSSP members to contribute their special expertise to the discussions envisioned in both of these symposia in addition to their participation in all of the Global Section's panels this year. (Access to the symposia on August 13th is included in your SSSP conference registration.)

The post-conference symposia described later in this issue of *Social Problems and Global Issues* represent the fruits of the first major initiative of the SSSP Global Section. We salute the Lee Scholar-Activist Support Fund for once again making possible the presence of international scholars in our annual meeting. We are also tremendously grateful to the material and organizational support from the co-sponsors of these events. I would like to begin by acknowledging the substantial financial support received from the progressive journal *Critical Sociology* published by Brill Academic Publishers, Leiden, The Netherlands. Special thanks goes to David Fasenfest, editor of *Critical Sociology*, who will be participating in the Aug. 13 symposium ***Globalization and Neoliberal Crises: Social Problems and Social Struggles***. David's presence will offer a special opportunity for interested authors to converse in person about submitting their work for publication. For those who may not know, *Critical Sociology* is one of the most successful international, peer-reviewed journals in the Brill

Academic series and has recently taken the decision to expand from four to six issues annually. A recent special issue of *Critical Sociology* produced by faculty and students at Boston College grew directly out of a special SSSP session co-sponsored by the journal at a previous annual meeting. That special issue has since evolved into a book entitled *Culture, Power, and History: Studies in Critical Sociology* (Brill, 2006), edited by Stephen Pfohl, Aimee Van Wagenen, Patricia Arend, Abigail Brooks and Denise Lecken. Be sure to look for it on display in Montreal and encourage your library to purchase it.

In addition, we received financial support to meet the international travel costs for one of our Latin American meeting participants from Inter Pares, a Canadian cooperation and development organization based in Ottawa. Behind the name *Inter Pares* (literally, "among equals") is a feminist organization in structure and management that works in support of community-based development programs. Their participation in national and international coalitions and networks seeks to create and strengthen social change processes, thus linking social action in Canada with social change processes internationally and advocates for global justice and equitable, sustainable development. For more information on their activities, feel free to visit their website <http://www.interpares.ca/en/who/index.php>

Another symposium co-sponsor is Project Counselling Service (PCS) whose main office is in Lima, Peru. Among their important projects in South and Central America is an ongoing Dialogue about alternative forms of regional integration which they recently initiated. Their book: *South America's New Dialogue: Another Integration is Possible* will be making its debut at the symposium.

Thanks to a generous grant from the Canadian Partnerships Program of the International Development Research Centre (IDRC), our Canadian co-sponsors have received strong

supplementary funding to be administered by Inter Pares in support of the post-conference SSSP symposia. The IDRC is a Canadian Crown corporation that works in close collaboration with researchers from the developing world in their search for the means to build healthier, more equitable, and more prosperous societies. The IDRC grant will help cover the additional travel and related costs of special session participants from Latin America as well as to cover the costs of an English translation and printing in booklet form of the PCS book *South America's New Dialogue: Another Integration is Possible*. We are very grateful for IDRC's support of the collaborative effort made by Canadian partner institutions in helping to make this important international dialogue come to fruition at the Montreal meeting.

We are also very pleased to have *Project South: The Institute for the Elimination of Poverty and Genocide* (Atlanta/Washington, DC) as a major collaborator with the SSSP Global Division this year. Project South activists Walda Katz Fishman and Jerome Scott, who are previous recipients of the SSSP Lee Founders Award, organized the SSSP Global Panel *Teaching for Global-Local Problem Solving: Curriculum Transformation and Social Change*. Project South is a co-sponsor of the symposium on Globalization and Neoliberal Crises and is one of the organizers of the first ever U.S. Social Forum, so you will want to hear more at the symposium about how to get involved.

Finally, we are tremendously pleased to welcome back to the SSSP Annual Meeting, some of our longstanding Cuban members. In recent years, Cuban scholars found their visas being continually denied by the U.S. State Department, in spite of protests from the SSSP Executive Board, resolutions from the SSSP membership, and many others. Indeed, disgust among the membership of the *Latin American Studies Association* with this policy ran so high that they opted to hold their 2007 Annual Meeting in Montreal with its average 5000+ participation so as to ensure the participation of more than a hundred Cuban academics. The SSSP Global Division salutes this decision of LASA, mindful of the fact that the SSSP also has a policy of canceling their meeting sites, sometimes at great cost, rather than submit to blatant injustice. Over recent years, Canada has cultivated a "special relationship" with Cuba in defiance of the dictates

from Washington and has enacted specific laws that forbid Canadian firms from cooperating with the U.S. sponsored embargo directed at the island. We are going to be closely examining Canada's principled stand on this issue as part of a special symposium session dedicated to Cuba and the North American solidarity movement. In this year's annual meeting and symposia, there will be three Cuban SSSP members in all participating from FLACSO-Cuba, an inter-disciplinary research faculty working on development issues at the University of Havana.

On that note, we wish to especially acknowledge and give our thanks for the support of the International Development Studies Program (IDS) at Dalhousie University, Halifax, Nova Scotia, in providing travel funding for one of the Cuban scholars. IDS has one of Canada's most successful undergraduate student exchange programs with Cuba and it provides a fine model for promoting mutual scholarly exchange and research opportunities. It should be noted that U.S.-based student exchange programs were shut down in recent years due to a refusal by the Bush Administration's State Department to renew their "study licenses." We are also pleased that Marian T. MacKinnon, the IDS Cuba Program Director, will be participating in our symposium on Cuba on August 13th.

In other Division News, we are happy to announce the winner of the 2006 Graduate Student Award for outstanding scholarship. The committee voted for two co-winners: **Afshan Jafar for her paper "Context Matters: Fundamentalism, Feminism, and NGOs in Pakistan"** and **Basak Kus whose paper was entitled "A Tale of Two Neoliberalisms: British and French Welfare Policy after the Neoliberal Turn."**

We envision *Social Problems and Global Issues* to serve not only our Division members but all those who share an interest in the global dimension of social problems. We solicit contributions as well as suggestions from all of you. This is an exciting time to participate in the growth of the SSSP Global Division and so we invite you to get involved with our activities. **Also, be sure to renew your SSSP and Global Division Membership!**

FEATURED BOOKS BY OUR MEMBERS

DOUBLE STANDARD*Social Policy in Europe and the United States*

by James W. Russell

Today Europeans see their strong welfare states as necessary counters to the worst features of unrestrained capitalism, and pay high taxes to support generous social benefits. Americans, to the contrary, have been conditioned to shudder at the very idea of a welfare state, instead upholding a laissez-faire faith in market solutions to social problems. They pay low taxes and have few tax-subsidized benefits.

In this extensive study, James W. Russell explains the development of social and welfare policy models, comparatively examining the way in which Europe and the United States have handled the social problems of poverty, inequality, unemployment, family support, health care provision, ethnic and racial conflict, and crime. Russell demonstrates that the disparate European and American social policy orientations have produced social ways of life that are now in contention for the future of western society.

This is a wonderful book, erudite and sophisticated, yet lucid and to the point. Russell offers us a sweeping portrait of the development of social policy in Europe and America, and helps us to understand not only the differences between the European and American welfare states, but why those differences are so important.

Frances Fox Piven, author of *Regulating the Poor*
President-elect, American Sociological Association

Russell's tools are clear writing, tight argumentation, and impeccable logic. He uses them to calmly and surgically dismantle the myth of American superiority as he explains how and why Americans receive far fewer social welfare benefits than their European counterparts. A real eye-opener.

Levon Chorbajian, University of Massachusetts

Comparative social policy has begun to acquire a deserved status in recent years and this detailed and engaging book is a significant and welcome addition to the canon. At a time when policy transfer, from the US to the UK, between European states, and from the 'West' to the 'East' and vice versa, is the subject of much heated political and policy debate, this careful analysis draws out similarities and differences between welfare regimes in a thorough-going, evidence-based manner. It is also strongly recommended for its attention to the impact of history and ideology.

Gary Craig, University of Hull, UK
